LEOPARD TORTOISE

Stigmochelys pardalis · Savannas of eastern and southern Africa
Savanna grazer · Grasses + succulents · Wild-range diet

3-SECOND CHECK Is the bowl 70%+ grasses/hay + greens + succulents?

THE RULE Savanna grazer. Grasses + greens. NO fruit, NO animal protein.
African savanna — mixed grasses (>70%), succulents, weeds, prickly pear.

≈70% BASE Grasses + hay + wild weeds

≈30% TREATS Leafy greens + succulents + flowers

BASE 70%
Grass hay
Timothy, orchard, Bermuda

BASE
Dandelion, mulberry
wild forage

GREENS 30%
Collard, mustard, endive
rotated daily

GREENS
Prickly pear
pads and flowers

GREENS
Hibiscus
edible flowers

Plus other plants and prey from their wild range — pesticide-free only.

TABOO NO ANIMAL PROTEIN. NO FRUIT (causes diarrhea, gut imbalance). No iceberg. No daily commercial pellets.

HOW WE FEED

- Grasses and hay dominate the bowl. Greens and succulents rotate as treats.
- NEVER feed fruit. NEVER feed animal protein.
- Baseline before guest hours — do not feed to fullness before guests arrive.
- All items pesticide- and herbicide-free.

MATCH THE BOWL — DON'T INTERPRET.

If unsure: Pause → Ask → Escalate. No substitutions without approval.

What a living thing can sense becomes its reality. Environment shapes design.
